Quick Facts

- Acquired along with 150 Mile House Waste Heat in 2017
- Facility situated alongside a Westcoast Energy BC Gas Pipeline compressor station

Community Investment

At Capital Power, we contribute to the communities in which we operate with the aim of building a sustainable future for all. We engage our neighbours, consider their interests and build real relationships. We aim to source supplies and services locally for our operations, as well as hire from the community. At Savona Waste Heat:

- We pay approximately \$67,000 in property tax annually, contributing to community tax bases, supporting the improvement of infrastructure, roadways, and community services.

“Given Capital Power’s deep experience in operating thermal facilities and the ability to optimize value, the 150 Mile House and Savona Waste Heat facilities are an ideal addition to our fleet and an excellent strategic fit.”
