

## Fact Sheet | Tisch Mills Wind

### Project Details

**Location:** Wisconsin, United States

**Status:** In Development

### Fuel Type(s)

Wind

### Proposed Capacity

**100 MW**

Our proposed 100 MW Tisch Mills Wind project is currently in planning. With approval, the project would be located on 12,000 acres in Manitowac County, Wisconsin, with a planned interconnection at the ATC's 138 – kV line between Kewaunee and Mishicot substations.

### Consultation and Engagement

We value and consider local community interests and priorities. We engage government, employees, local communities, investors, shareholders, and Indigenous communities. Our goal for every project, every facility and every initiative, internal and external, is to build, operate, and align with the interests and priorities of those closest to, and most impacted by, our operations.
