

### Company Overview

Capital Power is a growth-oriented North American wholesale power producer with a strategic focus on sustainable energy headquartered in Edmonton, Alberta. We build, own and operate high-quality, utility-scale generation facilities that include renewables and thermal.

We have also made significant investments in carbon capture and utilization to reduce carbon impacts and are committed to be off coal in 2023. Capital Power owns approximately 7,500 megawatts (MW) of power generation capacity at 29 facilities across North America. Projects in advanced development include approximately 151 MW of owned renewable generation capacity in Alberta and 512 MW of incremental natural gas combined cycle capacity, from the repowering of Genesee 1 and 2 in Alberta.

### Attractive Investment Opportunity

- **Diversified portfolio of assets** – 29 operating facilities that generate power from natural gas and coal (until 2023) and from renewable sources such as wind, solar and waste heat.
- **Leverage to Alberta power market** – ownership interest in the most competitive fleet of assets with a solid track record of value-added portfolio optimization trading.
- **Strong pipeline of growth opportunities** – potential wind and solar developments in specific targeted markets in Canada and the U.S.
- **Growth in renewables assets** – since 2017, have added 4 wind and 2 solar facilities totaling ~820 megawatts.
- **Off coal by 2023 and net zero by 2045 targets** – with the repowering of Genesee 1 and 2, the Company will be off coal in 2023 and is targeting an emissions-reduction target of net zero by 2045.
- **Dividend growth** – 9 consecutive years of dividend growth with 6% annual dividend guidance to 2025.
- **Commitment to investment grade credit rating** – current ratings of BBB- (S&P) and BBB(low) (DBRS)
