

Quality Wind

Hello,

I'm Jesse Coonce, the Site Manager at Capital Power's Quality Wind facility since 2014. My family and I are proud to be a part of this vibrant community and especially enjoy exploring the trails, fishing in our lakes and attending our local events. Last summer's forest fire scare was a reminder of the importance of strong community and looking out for our neighbours. I'm thankful there was no damage or loss, and I was proud to see the way our community came together. I'd like to remind everyone to be extra-vigilant and fire-safe this season.

We have an established community investment program, which I am proud to say has been at work in the local area. Capital Power's community funding has provided annual scholarships for Tumbler Ridge Secondary School students, access to free family skates and swims at the community centre, meals for the food bank and so much more.

In 2023, we launched our Community Sustainability Fund offering grants of up to \$20,000. See page 2 to learn how you can apply for the 2024 Fund.

If you have any questions or need assistance, feel free to reach out. Let's continue working together to make a positive community impact!

Jesse Coonce
Site Manager, Quality Wind

About Us

Capital Power is growth oriented North American power producer, publicly traded (TSX: CPX), and headquartered in Edmonton, Alberta.

We create innovative electricity solutions to electrify the world reliably and affordably while protecting the planet for future generations.

Site updates

- > As a result of the 2023 wildfires, we continue to evaluate the area to ensure our equipment and turbines are protected as best as possible. We're considering solutions including clearing the vegetation to create more space and potentially applying a fire retardant coating to the power poles..

Once we identify the best solutions, we'll implement them as proactive measures as we embark upon wildfire season.

Building our community together

We're excited to collaborate with innovative organizations and partners making significant impacts on the vibrancy, wellbeing and overall sustainability of our communities. We aim to source supplies and services locally for our operations, as well as hire from the community, when possible.

We give back where we live and work by supporting local organizations and through our employees' community participation with our corporate giving programs.

Recent community support includes:

- Tumbler Ridge Mountain Bike Association
- Tumbler Ridge Public Library Association
- Tumbler Ridge Secondary School
- District of Tumbler Ridge – Free Skate & Swim Nights
- Northern BC Crime Stoppers Society

Capital Power's team of renewable operations

Quality Wind turbine against the blue sky

We are proud to support the communities where we live and work to help you achieve your climate action goals. Last year we launched our Community Sustainability Fund (CSF) to support grassroots projects that benefit our communities.

We'd love to work with the community of Tumbler Ridge to find sustainability projects that matter to you!

The deadline to apply for our Community Sustainability Fund is May 31, 2024.

For more info or to apply, visit: www.capitalpower.com/CSF

Request support for your community initiative

Capital Power provides support in the areas of Climate Action, Wellbeing and Equity & Opportunity. If you are a part of a community organization that operates in this area and have events or initiatives that support these impact areas, please consider requesting support through our on-line system on our website: www.capitalpower.com/support
